

Orderlunches is now Boonli!

Over the summer, the service we use, Orderlunches, changed its name to Boonli and launched a new user experience. The platform still provides the same secure and time-saving features that make ordering meals simple, but now with some additional benefits.

Highlights include:

- You will be able to log in from anywhere – smartphone, tablet or computer – and take care of all orders and payments.
- The color-coded features make it easy to see at-a-glance how many items are in your cart, what orders have been placed and the total number of users with an order each day.
- Like always, you'll be able to star favorite items, so the platform will automatically select them every time they are offered.
- After saving an order, if you'd like to copy that order to other users it's as easy as a click of a button.
- Navigation is simple – just click on the menu icon in the upper left-hand corner to open up tabs to your order history, profile, program information and help menu.
