<b>Q9: Currently, our ordering is done monthly. Is this convenient?</b>	Other (please specify) Please go to a prepaid account so we don't have to try and figure out when kids are buying lunch so far down the road. A lot of schools use this system.

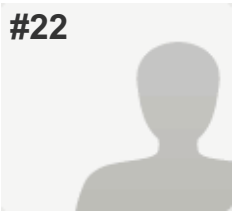

**Q10: Please share any thoughts you have on our current or proposed lunch program.**

The current system of buying is outdated. Need the flexibility of deciding day prior or even morning of if they are going to buy lunch. Prepaid account would be great! At least for the older kids.

Please provide some more nutritious choices- not all the fried food and hot dogs. Just more choices in general would be great- it's the same every month. So many items kids would like - just need to implement them. We have been at SMS for many years and trust me when I say the food that is served does NOT have a good reputation. I don't let my kids near it.

One out of three of my children order numerous lunch items and he loves those certain menu items. The other two do not like some of the options, which is why they don't order. Faves for all three: pizza, pancakes, corn dog, super dog, nuggets...

There are usually several things on the menu that they don't care for, but also many that they think are awesome. But even if every day was something they like, we'd still pack the majority of the time for purposes of cost/nutrition.

I would rather have an acct and let the kids pick daily. The last time we bought a pizza lunch(a couple years ago) for a K kid, it was so late in the lunch period for them that the pizza was cold.

I think we should evaluate all of the menu options and recipes to see if we can offer the freshest, healthiest food possible to our kids. Food sometimes seems overcooked and dry.

<b>Q9: Currently, our ordering is done monthly. Is this convenient?</b>	I'd prefer to order weekly , Other (please specify) I understand the need for monthly planning with how the current system is however, there are times when the selection has changed or you do not meet the deadline and lose out on the option for the entire month.

**Q10: Please share any thoughts you have on our current or proposed lunch program.**

My child used to love pizza Friday's however she has indicated there was a change in the pizza and what is served now is not favorable. Also the quality of the salad bar (specifically the lettuce) has left her only eating eggs and cucumbers sometime and she has been told to stop getting the eggs (even when the salad bar IS her meal) to make sure there is enough for others. Additionally ordering for the month is a challenge. It does not allow for much planning and there have been times where we missed the deadline and then you have to forgo the entire following month. It is important for the items to be healthy, nutritious yet kid friendly and options.

Healthier lunch items would be preferred. More options that kids like. I see a lot of kids throwing away lots of food in the cafeteria.

Change the pizza back to Papa John's. The kids don't like the current pizza. Also can they get salad with their pizza? It's on the menu and We pay for it but the Kids are told the salad is for teachers.	
We typically just purchase pizza. If there is a way we can purchase it less often than monthly perhaps each semester.	
I would definitely support a soup and sandwich bar if reasonably priced. Younger kids don't typically eat as much as older kids and therefore should be priced accordingly.

Would like to see alternative to pizza offered maybe every other week. Can still offer pizza but add another choice that day.	
Although they would like to, kids don't bother ordering on waffle day bc they say they are always cold. Not just not warm--actually cold.

I would happily sign my daughter for school lunch but it must be fresh and healthy, I don't mind simple food but must include non gmo, no high corn fructose syrup and artificially colored foods. Simple bread, cheese, some veggies, yoghurts will be perfect!

I would love to order more for my children but they do not like any of the foods. My experience has been that the food is really subpar. I am tired of packing lunches and would welcome some changes. Pizza was one of the only purchases that they made and they do not like the new pizza so they will not eat that either.

I love that we have a chef who cares about the kids -- I just wish the offerings were a little more healthy. That said, I understand that it's a hard job making kids eat healthier foods, and that there's a lot of waste, and that it's expensive to feed everyone! I also wish we'd implement the composting program that was proposed a year or two ago -- so much could be kept out of landfills -- we could be leaders in this area for the Richmond Diocese. Thank you!

<b>Q8: Is Pizza Friday still an interest for you/your child?</b>	Yes

<b>Q10: Please share any thoughts you have on our current or proposed lunch program.</b>	
It would be great if there was a way to get cleaned and cut fresh fruit and veggies b/c the kids throw away apples, oranges and pears that they cannot or do not have time to peel or cut apart. Pre-packaged veggies with dip or fruit would be a great option. Plainer hot options like roasted turkey or ham would be good, then sides a la carte.

The lunches are great and the kids think Chef Gene is an awesome cook. They were very disappointed, however, when the Papa John's pizza was replaced by something else. They do not like the new pizza at all and we have stopped buying it.

I am very happy to see that there is going to be an improvement to the lunch program. Our family is so happy at SMCS with the exception of the quality of the menu served. Here are some other menu suggestions: Soup, BBQ (pork or chicken), Lasagna, Deli Sandwiches

Sometimes food is "saved" longer than it should be (the same re-warmed potatoes are offered day after day until they finally get thrown away).	
More baked foods (less greasy / fried) should be offered.	
The cafeteria staff is great!!

More than anything, I hate making lunches and would love to buy. With more options, I would feel comfortable with my kids actually eating and not wasting money. I refuse pizza day- has anyone looked into the ingredients of Papa John's pizza? it is horrible and the few times my kids have had it, they said it didn't taste good and was cold. They do love pizza and I would consider if a better option.

I am looking for fresh, healthy foods for my child. I do not like having to make lunch every day but my child cannot eat a processed and sugary diet.

**Q10: Please share any thoughts you have on our current or proposed lunch program.**

We've been looking into the school lunch programs offered internationally and are extremely disappointed in the offerings we have (we are an multi-national family). We feel strongly there should be tasty fruit and veggie options, more and healthier meat items and an overall focus on less sugar and additives. Current literature supports a totally different nutritional guide than the "old school" food pyramid. We hope St. Mary's will lead the way in healthier provisions at which time we would love to participate in the lunch offering program!

Tom & Denise Clark have offered to help and provide free of charge assistance with the lunch program because it is subsidized. Our help was refused. I am a school nutrition specialist with the department of education for 15 years and have been in the food service business since 1983. My husband has over 30 years of experience. Our experience would be a great help. Also to purchase our expertise would cost upwards of \$4000.00. Just helping in the cafeteria for lunch has shown me areas that needed assistance i.e. menu planning and purchasing procedures and food safety issues as well.

The online ordering is great - just focus of being more diligent about sending out the email to tell people when ordering is open. The selections are where you need to focus. I can't tell you how frequently the kids complain about the choices, about hair in the food, about the school running out of food - I'd seek some improvements there...

I think our lunch program is great and I love Chef Gene; I do wish we had more healthy lunches but I recognize that kids don't necessarily eat healthy food. I also wish we could implement the proposed composting program for our trays and food not eaten. I wish we could talk to the kids about not wasting food, and also about doing a better job cleaning up after themselves in the lunchroom.
