

## Clinic News

May 31, 2019

Dear Parents,

We are coming to the close of another wonderful school year at St. Mary's! We truly appreciate all of the support you have given us this year. Thank you for picking up ill students promptly and keeping them at home until recovered and no longer contagious. Thank you also for making sure that medications given at school were in original unopened containers/packages and provided with the appropriate permission form filled out. Your cooperation makes our job much easier and helps to keep our students safe and healthy!!!

**Please plan to stop by the clinic and pick up any leftover medication by Friday, June 7th after the closing Mass. This includes epi-pens, inhalers, prescription, and non-prescription medication. Any medication not picked up will be discarded!**

You are welcome to bring in a new supply when school begins in August. Also, please note, that all **medical forms** must be completed annually at the beginning of each school year and are available in the clinic and online.

Have a wonderful summer!
